

Southern Delaware Vascular Institute Grand Opening: A Beacon of Comprehensive Vascular Care in Lewes, Delaware

Lewes, DE — September, 2023 — Southern Delaware Vascular Institute (SDeVI) proudly opens its doors to the provider community, marking a significant milestone in bringing state-of-the-art vascular care to the heart of Delaware.

A Confluence of Expertise for Comprehensive Care

What happens when a prominent cardiovascular group, a team of vascular surgeons, an Interventional Radiologist with a passion for embolization therapies, and one of the largest Vascular management company join forces? The answer is Southern Delaware Vascular Institute (SDeVI), an innovative healthcare facility that addresses the diverse vascular needs of the community. The esteemed physicians behind this initiative include Dr.s' Rob Myers, Carlos Neves, Kevin Caldwell, Sean Ryan, Alberto Rosa, Ajith Kumar, and Mark Garcia.

Recognizing a crucial need in the community for a comprehensive vascular care center, these innovative physicians reached out to American Vascular for its expertise in making their vision a reality. The result is a state-of-the-art facility that brings together advanced medical technology, a team of skilled professionals, and a commitment to delivering unparalleled care.

Your Destination for Vascular Health Needs

SDeVI stands as a beacon of hope for individuals seeking top-notch vascular care in the Delmarva region. The Grand Opening on November 2, 2023, was an opportunity for the provider community to witness the culmination of months of dedication, collaboration, and planning.

The facility's Office-Based Lab (OBL) is designed to offer a comprehensive suite of vascular health services, providing patients with a convenient and accessible location for their healthcare needs. The physicians at SDeVI are committed to delivering personalized, patient-centric care, utilizing the latest advancements in vascular medicine.

American Vascular: Partnering for Success

American Vascular is thrilled to be part of this collaborative effort, working alongside the visionary physicians at SDeVI to make a lasting impact on the health and well-being of the Delmarva community. The Grand Opening marks not only the unveiling of a cutting-edge healthcare facility but also the beginning of a journey to enhance accessibility and quality of vascular care in the region.
