

# ...and then there were two!

Pinellas Vascular, renowned for its comprehensive vascular and vein care services, has expanded its presence with a new office in Tampa, Florida. Located at 3450 E. Fletcher Ave., Suite 330, this facility aims to enhance patient access to advanced vascular treatments in the region.

The Tampa office is led by Dr. Avianne Bunnell, a board-certified vascular surgeon with an impressive background in both clinical practice and academic medicine. Dr. Bunnell completed her specialty training in a competitive Vascular Surgery Integrated Residency program at the Medical University of South Carolina and earned her Doctor of Medicine from the University of Central Florida College of Medicine. Her commitment to patient-centered care is a cornerstone of Pinellas Vascular's philosophy.

Joining Dr. Bunnell is Chelsea Hermez, APRN, a board-certified family nurse practitioner dedicated to enhancing patient well-being. With over 12 years of nursing experience, Chelsea holds two bachelor's degrees and a master's degree. She specializes in cosmetic injections, weight management strategies, and managing patients with peripheral vascular disease and venous insufficiency. Her expertise includes administering dermal fillers, anti-wrinkle relaxers, vein ablations, and sclerotherapy. Chelsea's approach focuses on helping patients embody their ideal selves, aligning with the practice's mission to improve quality of life.

The expansion into Tampa reflects Pinellas Vascular's dedication to providing state-of-the-art vein and vascular care to the communities of Pinellas and Hillsborough Counties. The new office offers a range of services, including treatments for varicose veins, peripheral arterial disease, and embolic therapies for conditions like uterine fibroids and knee osteoarthritis.

Patients seeking expert vascular care in Tampa can now benefit from the combined expertise of Dr. Bunnell and Chelsea Hermez at the new Pinellas Vascular location. For more information or to schedule an appointment, visit Pinellas Vascular's website or contact the Tampa office directly.
